

WEEE Statement

Product Take-Back and Recycle Program

Litre Meter Ltd runs a formal product disposal Take-Back and Recycle Program in Europe that complies with the European Union Directive 2002/96/EC on waste electrical and electronic equipment, also known as the "WEEE Directive". In the UK this requirement is defined by Waste Electrical and Electronic Equipment (WEEE) Regulations 2006.

This program will provide self-service instructions for ease of use product take-back and recycling. Equipment that is returned through this program will be handled in an environmentally safe manner using processes that meet or exceed the WEEE Directive requirements. This program is for Litre Meter customers who have Litre Meter and other manufacturer's flowmeters that have been supplied by Litre Meter that have reached the end of life.

Programme guidelines are as follows:

1. Litre Meter Ltd will accept Litre Meter Ltd (UK) branded or supplied flow meters, with or without the standard WEEE "dust-bin" symbol. 
2. Return of electrical and electronic equipment requires Litre Meter Ltd authorization prior to return.
3. If the flow meter to be returned is a system that requires dismantling, the customer will be responsible for all expenses associated with the dismantling and removal of the system.
4. For other questions about the environmental compliance of Litre Meter Ltd flowmeters contact by email.

Flowmeters are defined as either:

- those that are manufactured by Litre Meter or
- those that have been supplied by Litre Meter

Protecting the Environment – Litre Meter Ltd Recycle Program

Welcome to the Litre Meter Ltd recycle program. Litre Meter Ltd.'s program provides Litre Meter Ltd customers an environmentally responsible solution for the return and recycling of your Litre Meter technology assets that is compliant with current and forthcoming regional regulations. The Litre Meter Recycle Program is easy to use. It has been structured to make the treatment, recovery, and recycling of Litre Meter flowmeters environmentally sound and cost effective. It relieves the user of the responsibility managing out-dated or used equipment. Just follow these easy steps to get started:

1. Identify the equipment that you want to return to Litre Meter
2. De-install and pack your equipment :
 1. If applicable, batteries removed

2. If applicable, data removed
3. Contact Litre Meter Ltd to arrange for return or pick-up.

Recycle FAQ – Program Highlights

Q. Is the Recycle program available worldwide?

A. The program is currently available in the European Union. Please contact us for availability in your location.

Q. How is the Litre Meter Recycle Program managed?

A. The program enables Litre Meter customers to ship Litre Meter flowmeters or flow meter equipment to a designated location for treatment, recovery and recycling purposes. Transform of High Wycombe run our Producer Compliance Scheme and assume legal responsibility.

Q. What happens to the equipment that gets returned?

A. The equipment that is returned to Litre Meter through this program will be handled in an environmentally safe manner through processes that comply with all applicable electronic waste regulations - e.g., EU WEEE Directive.

Q. Who pays the recycling and transport costs?

A. Litre Meter Ltd pays all recycling fees and transport costs.

Q. What is my business's liability for product that is returned through this program?

A. For all equipment that is returned through this program indemnifying you against liability (or releasing your business from any further liability for the equipment). Upon return Litre Meter assumes that users complied to Member State's legislation with respect to safety, hazardous substances, etc.

Q. What flowmeters are included in this service?

A. Litre Meter Ltd will accept Litre Meter supplied flow meters in the eligible countries. Competitor branded equipment will only be accepted on a one-for-one basis at time of purchase of similar Litre Meter Ltd equipment.

Note: The terms "disposal", "disposed of", and "handling" refer to the treatment, recovery, recycling and environmentally sound disposal of Litre Meter Ltd equipment that is being discarded.

Terms and Conditions

1. Customers accept the following terms and conditions when they submit a Recycle request: The returned product may not be contaminated with substances that may be hazardous to health or harmful to the environment.
2. Customer is responsible for the deletion of any sensitive data and removal of any battery contained in or on devices or data carriers that are returned to Litre Meter Ltd.
3. Packaging Condition - All flowmeters are to be packed and ready for pick-up, boxed and labelled with the Return Authorization Number.
4. Recycle Fees - Litre Meter Ltd will pay all recycling fees related to the treatment, recovery, recycling and environmentally sound disposal of flow meters submitted through this program.
5. Transport costs:
 1. End-users: You will be asked to return flow meters to a pre-defined address at Litre Meter's expense.
 2. Distributors: Based upon volume, consolidated either >100 kg or 1 m³, with a maximum frequency of once a month -- Litre Meter Ltd will arrange pick up.
6. Assignment - The End User Customer assigns all rights in the title and treatment, recovery, recycling and environmentally sound disposal of the recycle product to Litre Meter, free and clear of any future encumbrances. The End User Customer warrants that they have clear and merchantable title to the product being shipped to Litre Meter Ltd.
7. Customer will be responsible for any costs incurred if incorrect flowmeters are identified and sent for shipment.
8. Litre Meter Ltd is not responsible for any product shipped in error and makes no guarantees that such product can be returned to the Customer.
9. Customer is held responsible to apply the instructions sent. If not, Litre Meter Ltd is not held responsible when those instruments end up in other collective schemes.

Please contact us to initiate a return request.
